

St Simon's Bob Doubles

St Martin's Bob Doubles

②③⑤④ are starting positions and known as Place Bells. This corresponds to the bell number at the start of the method (4th place bell is where the 4th starts etc)

St Simon's has 2 dodges either side of making 2nds. St Martin's has places either side of making 2nds. This is known as the frontwork. Other than that they are identical.

Plain Course Work Order

Plain Bob Starts – Odd bells out, even bells in.

Make 2nds, frontwork, 3-4up, 4 behind, 3-4down, frontwork.

When a Bob is called

The same work as Plain Bob Doubles, but you pick up the line again differently.

The bell about to make 2nds runs out and picks up the line at ③.

The bell about to dodge 3-4down runs in and picks up the line at ②.

The bell about to dodge 3-4up makes 4ths and picks up the line at ④.

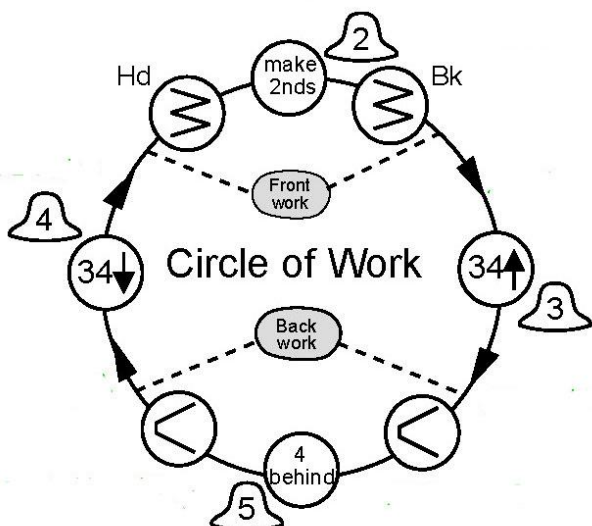

The bell about to make long 5ths is unaffected.

The tricky bit that catches most people out after making 4ths. If you look at ④ on the lines above, you will see that immediately start the frontwork before making seconds.

TIP: Forgetting 3rds and back between each bit of work? Remember the 3-4 down rule. Only visit the front after a 3-4 down dodge or if a bob is called on your way to a 3-4 down dodge (run in). At any other time it's 3rds and back. If you makes 4ths as you leave the front, go back in and start the frontwork again.

ON THE BACK ON THIS PAGE IS A CIRCLE OF WORK

St Simon's Bob Doubles

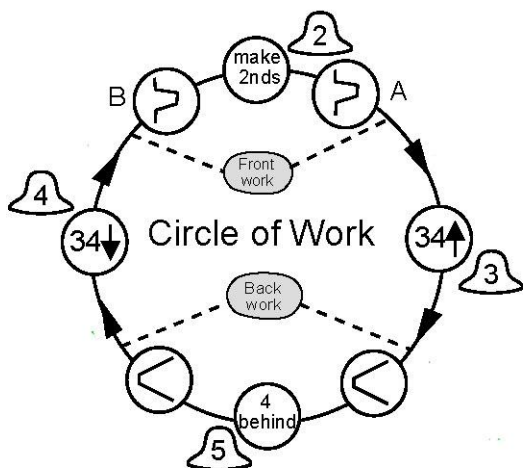

3-4 down = Hd B Double Dodge with B at front (Handstroke leads) Make seconds
 Bk A Double Dodge with A at front (Backstroke leads)

3-4 up = Thirds place from the back pass treble just before 4 behind B A B A
 Thirds place from the back

At a Bob...

Due to do	Do Instead	Do Next
